

REMOTE ACCESS SAGA CONTINUES: NEW PARTNERSHIP TAKES TOSIBOX TO ICELAND

The leader in easy and secure remote access technology, Tosibox has entered into a distribution partnership in Iceland with Stýring ehf.

November 2, 2017

OULU, FINLAND – [Tosibox](#), the maker of secure industrial communication technology and the world's first remote access device with Plug & Go™ technology has made an agreement with Stýring ehf. taking the award-winning technology to Iceland. Stýring are a well-connected distributor to integrator companies handling the automation of most Icelandic fish factories.

The VPN solution innovator Tosibox aims at strong growth in Scandinavia, having established its subsidiary Tosibox Scandinavia AB last year. The Finnish growth company also has subsidiaries in Germany and the United States. Recently the company [announced](#) another partnership in Brazil, expanding its offering into South America. Moreover, in November the company is [invited](#) to an exclusive EU-Japan ICT Business Matching event in Tokyo to build exciting networking opportunities in Asia.

"We're pleased to see our technology charm all around the world. Secure and easy-to-use connectivity is essential in remote locations with long distances, and TOSIBOX® helps create this in a never-before-seen fashion with both ease and security," said **Tero Lepistö**, CEO at Tosibox Oy.

"Remote access in the automation industry is very important for service and support. Before, the setup of remote access could be time-consuming and sometimes difficult. Offering TOSIBOX® to our customers is a revolution", said **Eiríkur Sigurðsson**, Sales Manager at Stýring Ehf.

TOSIBOX® products are considered best in class in industry automation, building automation, machinery engineering and the security industry. TOSIBOX® technology has taken a leadership role in establishing a new standard for VPN technology. TOSIBOX® technology is globally patented and used in 119 countries worldwide.
