

Press release October 5, 2018

TOSIBOX PARTNERS WITH OEM AUTOMATIC

A leading industrial automation distributor in Europe, OEM Automatic will distribute the award-winning TOSIBOX® products.

[Tosibox Oy](#), the Finnish creator of the unique IoT connectivity solution for industrial automation has entered into agreement with a new distributor in Sweden. [OEM Automatic AB](#) markets an extensive range of products from leading manufacturers, allowing customers to centralize purchases from one supplier. In addition to the Swedish home market, OEM Automatic is represented in 14 other countries.

Tosibox has developed a secure connectivity technology that simplifies IoT connectivity, remote maintenance and network management. The company has established a subsidiary Tosibox Scandinavia AB with in Sweden, and its proven solutions are used in over 120 countries worldwide.

"We are aiming at vigorous international growth. This partnership is a very positive signal of enforcing our presence in Scandinavia, and we are very excited to welcome OEM Automatic onboard," says **Jarno Limnell**, CEO at Tosibox Oy.

The award-winning TOSIBOX® technology brings several benefits to modern industrial automation systems such as standard deployment, IT/OT convergence solved, easy access group management and maximum operating time. The company's latest product, [TOSIBOX® Lock 500](#) hit the market earlier this year. The Lock 500 is a next-generation industrial router with firewall and secure Plug & Go™ connectivity designed specifically for industrial environments.

"We are pleased to have entered a partnership with Tosibox. Their products fit well into our range and aligns with our development towards smart products," says **Andreas Hvittfeldt**, Market Group Manager at OEM Automatic.

Tosibox will be showcasing its solution at [ScanAutomatic](#), Scandinavia's leading trade show for industrial automation. The exhibition will take place at the Swedish Exhibition and Congress Centre in Gothenburg, Sweden on October 9-11, 2018. Tosibox can be found at stand B00:15. OEM Automatic will also be present at their stand B07:22.
