

Press release, April 24, 2019

CEO OF VIRIA PLC MIKA VIHERVUORI JOINS TOSIBOX BOARD

Mika Vihervuori has been appointed in a general meeting to join the board of [Tosibox Oy](#), the company behind the patented TOSIBOX® IoT connectivity technology. Mr. Vihervuori complements the board through his expertise in strategy and change management.

Mika Vihervuori is the CEO of Viria Plc, a company specialized in corporate security and digital services. He has previously worked in various Director positions at Tieto and in the boards of AB Sappa and Hibox Systems Oy. Mr. Vihervuori holds an M. Sc. degree in Industrial Engineering.

“Years of experience as a manager in versatile businesses have taught me a lot about operative management, sales and marketing. My real passion is strategy and how to get people to make it happen. I am happy about this opportunity to closely follow and support the international growth story of Tosibox,” says Mika Vihervuori.

“Tosibox has a strong growth strategy that we are taking forward for example by complementing our product portfolio and developing business models. This year we will put effort especially into product development and sales, which already shows in recent appointments. Having Mika Vihervuori join us completes the solid expertise of Tosibox Board in an excellent way,” says **Jarno Limnell**, CEO at Tosibox.

Established in 2011, Tosibox Oy offers a simple and secure remote access solution that is widely used in building and industrial automation and the security industry. The solution enables the setting up of IoT environments and their easy access management. Last year the company’s consolidated turnover grew by 24%, to EUR 4.2 million.

In addition to Mika Vihervuori, members of the Tosibox Board are **Markku Tapio**, **Satu Yrjänä**, **Mikko Siivola** and **Veikko Ylimartimo**, who is the founder of the company.
